

TWO DAYS PROGRAM ON HUMAN VALUES & CULTURE ORIENTATION

5th & 6th August, 2019

OBJECTIVE

Need of Human Values: Human Values include respect, acceptance, consideration, appreciation, listening, openness, affection, empathy and love towards other human beings.

Our values are important because they help us to grow and develop. They help us to create the future we want to experience.

Every individual and every organization is involved in making hundreds of decisions every day. The decisions we make are a reflection of our values and beliefs, and they are always directed towards a specific purpose. The purpose is the satisfaction of our individual or collective (organizational) needs.

When we use our values to make decisions, we make a deliberate choice to focus on what is important to us. When values are shared, they build internal cohesion in a group.

Need of Culture Orientation: Cultural Orientation is an inclination to think, feel or act in a way that is culturally determined. It defines the basis of differences among cultures such as self-identity; inter personal relationships, communication, resolving conflict etc.

Cultural sensitivity is important because it allows us to effectively function in other cultures, allows us to respect and value other cultures and can reduce cultural barriers between professionals.
